

## Signs Point To Yes (But Outlook Not So Good)

### Headlights

All this time you felt all overgrown  
stuck inside with those little minds  
all alone  
and no one came  
winter refrain made you sing along  
to windowpanes  
and faster trains  
and lonely songs  
but im not the one who was wild  
and im not the one who left town on that night  
on that night

doctor said it was a poorly head  
and kept you laying down  
but its no so hard, getting out of bed  
not like all those times you never said  
she felt weighed down  
she felt weighd down  
but im not the one who was wild  
and im not the one who left town on that night  
on that night
