

# Above Ground Swimming Pools

Headstones

Headstones - Nickles For Your Nightmares Album  
Above Ground Swimming Pools Lyrics

I don't mind, A dozen conversations,  
I don't dislike an uncomfortable pause,  
An awkward moment, is to be savored,  
not unlike obscene telephone calls,  
I don't mind a few giant cliches, and,  
there's nothing wrong with a little bragging,  
I don't despise grandious displays,  
and outlandish disguise that we can hide in  
I don't mind holes punched in the drywall  
I see no reason not to park on the front lawn  
and I approve of above ground swimming pools  
and staying up until a half hour past dawn

riding high in a goddamn limousine  
steven tyler right beside me  
im riding high in a goddamn limousine  
steven tyler right beside me

im drinking drinks that are natural and green  
not a goddamn one that gets me high  
im flag a cab and i meet ozzy osbourne  
and the rest of his crew and their supplies  
i see Lou Reed and hes flashing an eight ball  
hes had more than a couple brews  
weem? seems to have it all  
under control as far  
and nothing he hears is ever news  
i call Alice Cooper up and  
have a quick game  
im pretty good on the back nine  
alice cuts it short  
his girlfriend is already late  
and shes gotta be to work on time  
you say you love me  
i say you dont  
you say you need me  
i promise you wont

its all that we have  
its all that we have  
its all that you have  
its all that you have

riding high in a godd damn limosine  
steve and tyler right beside me  
im drinkin drinks that are natural and green  
not a god damn one that gets me high  
he keeps on drivin and im  
listenin to him talk  
let me out at  
the next stop  
aqnd then theres ozzy and hes flaggin me down  
wayne? and garth? are right beside him  
you say you love me

i say you dont  
maybe you love me  
maybe you wont

its all that we have  
its all that we have  
its all that you have  
its all that you have

you said you loved me  
i said you dont  
you said you need me  
i promise you wont

its all that we have  
its all that we have  
its all that you have  
its all that you have

etc...
