

Hearts, Love & Honour

Headstones

There ain't no time for hearts love and honor
That ship left & I wasn't on her
Now I smile and I wave from the dock
And we both know that we sunk that ship with rocks
We dedicate ourselves to lovers, causes, things
We dedicate ourselves
We dedicate ourselves to lovers, causes, things
Dedicate

Broke that line still ain't that much calmer
The water's cold now and long ago lost its color
From blue to black that's when the current stopped
For there is no memory of how the circuits crossed
We dedicate ourselves to lovers, causes, things
We dedicate ourselves

So corrosive so much so it's lost its sting
I had to laugh like hell
There ain't no time for hearts love and honor
That ship left & I wasn't on her
No point in asking there'll not be another dance
By the time you're leaving you're back to waltzing in chains
