

In Black

Heathen

Take me underneath your wing
And show me everything
Then shelter me and guide me to
Transcend
Save me from the age of old
Embrace me with your cold
Then smother me and lead me to my end

Help me decompose
I stand before you
Watch me as I rot

Paint me darkened scenery
Then shine a light for me
Envelope me, illuminate my soul
Bathe me in your drowning pool
To cleanse a world so cruel
Then summon me in payment for my toll

Help me decompose
I stand before you
Watch me as I rot

Let's carve the stone
With flesh and bone
No holding back
Just swallow me in black
Let's dig the grave
Death, be a slave
No turning back
Just swallow me in black

Help me decompose
I stand before you
Watch me as I rot

Let's carve the stone
With flesh and bone
No holding back
Just swallow me in black
Let's dig the grave
Death, be a slave
No turning back
Just swallow me in black
