

The Blight

Heathen

We're bound by truth
And gagged with fear
Held ransom by desire
Corruption, sin
So crystal clear
Deceit for all conspired

Reward the fools and liars
Angel of disease

Infect us, feed on our appetite
To bleed the world

In the machine
The churning gears
Death factory's burning fire
Spread of decay
This rotting sphere
Lifeforce for all expires

Construct the funeral pyre

Angel of disease
We're dead inside
Infect us, feed on our appetite
To bleed the
Angel of disease
We're dead inside
Protect us, help breed this parasite
To bleed the world

Dead - DEAD
We are destruction, we're dead inside
Dead - DEAD
We are devoid of life
Dead - DEAD
We are infection, we're dead inside
Dead - DEAD
We are the parasite

Unleash the plague inside us
Unleash

We are devoid of life

We are infectious, we're dead inside
