

Fire Fire

Heaven's Basement

Don't tell me your name, I know it ain't gonna change anyway th
at I think
it's not as if you're to blame, if we're one and the same, we'r
e on the edge on the brink

Come take control, won't be the soul, just do as you're told,
come burn a hole in what they know, get up and go

Throw matches to see, what you can ignite
fire fire, fire fire
Throw matches to see, what stays out of sight
fire fire, fire fire.

'Cause when the clouds come down on the town estate
we'll make our way to a great escape
Throw matches to see, what you can ignite.

No time to spare, no truth or dare, give them something to hide
go with the time, step on the mines, our time to shine
come steal the wind, come throw the earth, come bring the storm
.
come seize the day, come make the change, give them something t
o mourn

Throw matches to see, what you can ignite
fire fire, fire fire.
Throw matches to see, what stays out of sight
fire fire, fire fire.

'Cause when the clouds come down on the town estate
we'll make our way to a great escape
Throw matches to see, what you can ignite.

We're all brought down in desperation by this dirty town and ag
gravation
it's time to leave and find another new home
yeah
we've had out day, our done is done so, in this weird landscape
let's do it over
there's no time to waste, to find another new home.

Throw matches to see, what you can ignite
fire fire, fire fire.
Throw matches to see, what stays out of sight
fire fire, fire fire.

'Cause when the clouds come down on the town estate
we'll make our way to a great escape

Flow matches to save, what you can ignite.
