

## Best Days of My Life

Heaven's Gate

Save us from all those fairytales  
We're livin' in a land of fantasies  
Give us all those hopes and dreams  
Together we could find a way to be free

Put your heart into the fire  
An eternal flame is waiting for you  
Put your heart into the fire  
The only one that lives in my view  
Believing in the best days of my life

Days are passing by  
And I'm drifting through empty rooms  
The rain keeps falling down, I'm living in sorrow  
I waited for so long to get the answer  
You know it's true  
And when the night comes down  
I wait for tomorrow

I know why you had gone away  
Escaping from my heart  
The chains of love were tearing us apart

Could we ever stay away from here  
Could you understand I wish you were here  
You always, always need a helping hand  
Someone's walking through your life with you  
A real good friend
