

# Spill Blood on Fire

Heavenly

Don't close your eyes in the darkness,  
No man can rescue in time,  
Looking the best at you make what yourself  
Cause the fire is flash and explodes!

Open your mind i sear,  
And reflect to clean the worse  
This could be heaven or this could be hell  
Beware of tomorrow  
We close to the edge  
I believe this for awhile  
Jesters far behind  
Don't you hear the crowds...(dont you hear the crowds)

Rising up over again  
To save what entire human race has left..

Let do the fight,let give them,'the misery'  
Let thinking about the hate,that's the way!  
They covered power  
What'll be the reality  
Spill in the fire.  
Hold life beyond the grave  
Let do the fight

See up to see the Mess jess down  
And the countdown hurry is done  
Awake for forgivers and  
Still look in weak and  
Still the sadness's come

So you can feel the loneliness  
As we and ours' dreams went die  
Justices to power or  
Justices to life  
And kill balms tomorrow and  
Kill for the pain

I believe this for awhile  
Jesters far behind  
Don't you hear the crowds...(dont you hear the crowds)

Rising up over again  
To save what entire human race has left

Let do the fight,let give them,'the misery'  
Let thinking about the hate,that's the way!  
They covered power  
What'll be the reality  
Spill in the fire.  
Hold life beyond the grave

Now  
Rides up the storm and  
Breaks the chains  
Find the inner peace to repent  
We still carrying on.

[Chorus 4x]
