Headphones

Hedley

Classroom phobic, I need a moment for me and myself
I'm feelin this mixtape, fixin my headache, shut the world out

Yeah I got problems but I got melodies to solve them
I'm coming up from the bottom, smoke 'em if you got 'em

When the world gets louder, I get louder I put my headphones on
 and go Headphones kickin' I'm on a mission trying to get free
I'm not religious but fuck it the music is making me believe

Yeah I got problems but whatever I forgot 'em
I'm coming up from the bottom, smoke 'em if you got 'em

When the world gets louder, I get louder I put my headphones on
 and go Another state of mind, forget about the time
Where nobody can find me, leave the world behind me
I put my headphones and go

Far away, a better place, I go

When the world gets louder, I get louder I put my headphones on
 and go
