

Eyes on You

Heffron Drive

It's a secret I'm watching
Every move you make
Are you a hidden hero waiting in the wings?
And you could take the opportunity
You've got the follow through
Put you on the spot
See what you're gonna do

I've got my eyes on you
I've got my eyes on you

There's a reason I'm watching
Every move you make
Are you that someone to help out a stranger that's in need?
Would you take the opportunity?
If you had a different view
Put you on the spot
See what you're gonna do

I've got my eyes on...
What would you do
If the stranger was you
Let your true colors show
You better know
You're my hidden hero
Hey hidden hero

I've got my eyes on you

I've got my eyes on...
What would you do
If that stranger was you
Yeah, let your true colors show
Yeah you better know
You're my hidden hero
Hey hidden hero
You're my hidden hero
