

Fingers Crossed

Heffron Drive

In the middle of the night
I'm calling you up
I know I said that I wouldn't
Maybe I'm just drunk
I'll call you a cab
Cause I don't wanna be alone
Ooh, get off in a hurry
Forget the shit I've done

I've been talking to myself since I don't call you anymore
I say it's fine most of the time, but it's not the same
We probably should be moving on
For now we're shadows in the night
We have inhibitions, but we never listen, no

If we have to say goodbye to the love we lost
We'll say this time's our last with our fingers crossed
Acting like you're mine, knowing that you're not
We'll say this time's our last with our fingers crossed

Yeah
In the middle of the night (middle of the night)
You were calling me up (calling me up)
You're the one who said not to
But you don't give a fuck
You're closing your tab
And you're on the way over
Said you're looking for something
One last time for closure

I know you're talking to yourself since I won't call you anymore
You say it's fine most of the time, but you're not insane
We probably should be moving on
We probably should be moving on
Still we're shadows in the night
We have inhibitions, you know we never listen, no

If we have to say goodbye to the love we lost
We'll say this time's our last with our fingers crossed
Acting like you're mine, knowing that you're not
We'll say this time's our last with our fingers crossed

Ooh-ooh, aah-aah
We'll say this time's our last with our fingers crossed
Ooh-ooh, aah-aah
We'll say this time's our last with our fingers crossed

Come on!
Woo!
Aah
Yeah, yeah, yeah, yeah, yeah

If we have to say goodbye to the love we lost
We'll say this time's our last with our fingers crossed
Acting like you're mine, knowing that you're not
We'll say this time's our last with our fingers crossed

Ooh-ooh, aah-aah
We'll say this time's our last with our fingers crossed
Ooh-ooh, aah-aah
With our fingers crossed
Ooh-ooh, aah-aah
