

Mad at the World

Heffron Drive

Do you ever been?
You should write this down he said
I got a head full of propaganda
And my coffee breaks at ten
I need to get away from this place
I've seen the other side of two things
Do you wanna meet at the corner of Arizona
The current situation I'm in
Is bad or is it that I'm

Mad at the world
Is anybody listening?
I'm screaming these words
At the top of my lungs, I'm
Ready to run
I can really use a way right now
I'm mad at the world
I'm mad at the world

I'm at it again
I'm getting sick and tired of this
My account's been draining dollars
And it doesn't make much sense
I gotta get away from this place
It's feeling like a slap in the face
I'm tired of taking the hit of the hell of it
I need some compensation or a compliment, yeah I'm

Mad at the world
Is anybody listening?
I'm screaming these words
At the top of my lungs, I'm
Ready to run
I can really use a way right now
I'm mad at the world
I'm mad at the world

Is
There
More to life in our farewell
Will I ever know?
Or is
There no meaning to this show
That goes on

I AM!

Mad at the world
Is anybody listening?
I'm screaming these words
At the top of my lungs, I'm
Ready to run
I can really use a way right now
I'm mad at the world
I'm mad at the world
