Step one Begins again at an argument But we're Still just friends Were eye to eye but we don't know Why everything just comes and goes when And I really want To be with you And you really want to be with me so But I cant control the way my heart feels When she looks right at me You should know That you're the something That I hold on to When I'm left with Nothing Eventually we will come back to each other But For now we're just not right I'm lying again Every time You come around here Watch my knees hit the ground You In the window cant see me In the end it's all the same Wе Will make it till tomorrow and past the sorrow Hope we Never fall apart I hope we never fall apart So you wana Stay with me And its time that we sit and we talk in the And I don't wana fight so we hold on tight To the Words that I say when I thank you You come around every Once in while When you leave, you come back And we'll roll at the beach babe You sneak out through the bedroom door And we laugh cause we always do the same thing Who'd have know if we'd gone forever That id write you a verse that you found clever I'm saying itpoetically In hopes you don't see what I mean So read between the lines I'm lying again

Every time you come
Around here Watch my knees hit the ground

You in the Window can't see me In the end it's all the same We will Make it till tomorrow and past the sorrow Hope we never fall apart I hope we never fall apart I'm lying again Every time you come around here Watch my knees hit the ground $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right)$ You in the window cant see me In the end It's all the same We will make it till tomorrow and past The sorrow Hope we never fall apart I hope we never fall Apart
