

# Holy Night

Heimdall

On these roads I'm a stranger  
I don't belong to this world  
The night's dark is calling my name  
I disappear in the shadows  
I want to feel your touch again  
Where is my home - my real world?

I'm alone - there is no god where I dwell  
By the sea - in this dark long winter night  
Through the rain - I'm looking for your witching eyes  
I'll reach your spirit forever

I'll fly far away from here

Holy night - give me the eternal deliverance  
Holy night - show me the valley of the shades  
Holy night - now the doors have been opened  
Holy night - so take my soul

Headless men - fallen empires - ghastly flames  
Distorted lands and dismal visions in my dreams  
Ghouls in the dusk - bedight in veils and drowned in  
tears  
Take my drama to the end

I'm flying away from here
