

# Midnight

Heimdall

Down - into the pit - I'll bring you, I'll bring you  
down  
Down - give me your soul - I'll bring you, I'll bring  
you down

Can you hear these voices? it's hell that calls your  
name  
Can you see these spirits? to hell they're taking your  
soul  
Can you hear this silence? might you be dead now?  
Can you feel my anger? it's midnight - farewell

Look in my eyes  
You can see just hate  
No mercy, pain left his old master  
The blade in my hand  
I want now your blood  
I'm taking your soul - your power is my life

The skies turn red  
Madness is my only god  
Rain will wash your sins and your blood away  
Don't you hear the crows?  
They are here for you  
Look out - the worm is behind you

Wake up - it's midnight - and hear: it's the calling of  
death  
She is crawling  
She is coming  
Wake up - it's midnight - don't turn and look to your  
end  
She is crawling  
She is coming

Down - into the pit - I'll bring you, I'll bring you  
down  
Down - give me your soul - I'll bring you, I'll bring  
you down

Can you hear these voices?  
Can you see these spirits?  
You can pray now  
It's midnight - farewell

Can you hear this silence? give me your soul  
Can you feel my anger? watching you fall  
You can pray now  
It's midnight - farewell
