Alienate Me

Helalyn Flowers

Walkin' on your streets In front of me you're silent Like an overdose You make me feel outside and What I look around Is only imagination But I can see the reality If I look in your eyes... Urban atmosphere A traffic of emotions As in a cage I feel my brain and actions And in your eyes ... You're killin' me I'm killin' you Please don't try to understand What my mind is searching for!

You're watchin' me I'm stabbin' you Don't you think it is enough To walk down your own street alone? People around me Keeping in hands Tryin' to cover my face Mass celebrations A new daytale's done Please alienate me... let it be!

Walkin' on your streets
In front of me you're silent
Like an overdose
You make me feel outside and
Urban atmosphere
A traffic of emotions
As in a cage I feel my brain and actions
Maybe what I live
Is only my alienation
But I can feel the reality
If I look in your eyes...

You're killin' me I'm killin' you Please don't try to understand What my mind is searching for! You're watchin' me I'm stabbin' you Don't you think it is enough To walk down your own street alone? People around meKeeping in hands Tryin' to cover my face Mass celebrations A new daytale's done Please alienate me... let it be!
