I'm not afraid
I'm not afraid to be human
Don't try to save me now
I'm building up a new paradise

Re-wind my visions
I'm breaking free now

Drowning into your eyes
The world is melting down
Just like a silver cloud
Drowning into your eyes
The time is bleeding now
Before I touch the ground

Drowning into your eyes
The world is melting down
Just like a silver cloud
Drowning into your eyes
The time is bleeding now
Before I touch the ground

I'm everything
I'm everything in this nothing
The monster is alive
But far away from my paradise

Re-wind my visions
I'm breaking free now

Drowning into your eyes
The world is melting down
Just like a silver cloud
Drowning into your eyes
The time is bleeding now
Before I touch the ground

Drowning into your eyes
The world is melting down
Just like a silver cloud
Drowning into your eyes
The time is bleeding now
Before I touch the ground

The monster is alive

Drowning into your eyes
The world is melting down
Just like a silver cloud
Drowning into your eyes
The time is bleeding now
Before I touch the ground
