

Beware of Light

Helalyn Flowers

Walk down these streets
I guess I'm getting lost in a lie
It seems like a vision
You let me see the world through your eyes

Where I could be lovely
I could be your pretty dolly
Go! Go! Kill me inside!
Build your monster in disguise

But I am mess, I'm chaos
I'm tremendously contagious
Not a faint illusion
I'm playing my revolution

Keep staying alive
For a moment
In the unknown
Beware of light
'cause sometimes
It's a fake comfort

So get down on your knees
And take a

Take a bite of my heart
These are my feelings
But I guess
You're not strong enough

To be proud and precious
To free your rabid passion
To build your empire
To set your fears on fire

'cause I'm lust, I'm madnesss
I skid into your essence
Guilty of being a sinner
I'm Unbreakable Material

Keep staying alive
For a moment
In the unknown
Beware of light
'cause sometimes
It's a fake comfort

Intoxicating tears
Purify what you fear
Evoking Temptations
