

Beyond

Helalyn Flowers

So you think this world is too blind
To break down these walls around
While everything seems going too fast
Then we'll realize there's much more
Beyond the veils

This void will tear apart me
This void will tear apart you
You made a blink out of me
And I will not wipeout you

So you think this world's too numb
As gravity subdues the ground
Will it ever make it last?
We have no more tickets to ride
To ride beyond
