

# Lost in Translation

Helalyn Flowers

Rising like a flower  
From the ashes to the light  
I can see my body sliding away

In a deaf implosion  
Bleeding cristal petals of life  
I am breaking in this silent escape

'cause I don't know where  
Is my destination  
But I don't know pain  
While I'm lost in translation

Show me  
How can I steal a star  
How to keep on shining  
Just for another day

'cause I don't know where  
Is my destination  
But I don't know pain  
While I'm lost in translation

'cause I don't know where  
Is my destination  
But I don't know pain  
While I'm lost in translation

'cause I don't know where  
Is my destination  
But I don't know pain  
While I'm lost in translation

Where is my destination?  
While I'm lost in translation
