

White Me in Black Me Out

Helalyn Flowers

The boys are made up of confidence
And metallic hearts
Greeting for glory
They're trapped
Inside a promising show

The girls are made up of innocence
And plastic control
Walking the day-life parade
Dressing a fake uniform

But I can be rain
And I can be snow
Nothing's impossible into my world

You white me in you black me out
But I can live without your world
You white me in you black me out
Yes I can live without your world

You white me in you black me out
But I can live without your world
You white me in you black me out
Yes I can live without your world

The boys are made up of flesh
And metallic soul
Compelled to shine like a star
Playing in a brand new trade-mark

The girls are made up of poison
Hidden into sugar
Ready to kill in a while
With an injection of love

You wanted my pain
You wanted my soul
Frozen, electric
And fake is your world

You white me in you black me out
But I can live without your world
You white me in you black me out
Yes I can live without your world
