

# You Let Me Shine

Helene Fischer

We flew just like two birds up to the stars As we left it all behind  
We were lost inside the climb It wasn't what I planned on  
from the start I was scared of the fall So afraid to give my all  
But you came over me like thunder You showed me what I have  
deep inside

You let me shine the way I am Let me be because you seem to understand  
I'll stay right here So free, 'cause I I can cry, I can  
laugh And I'll never have to mask The way I am, you let me shine

I say exactly how I think it is Speak the truth and go my way Not  
afraid to make mistakes I want the world to be a better place  
In my heart, through my eyes Honesty, no compromise You let me  
see that I'm a dreamer You show me what I have deep inside

You let me shine the way I am Let me be because you seem to understand  
I'll stay right here So free, 'cause I I can cry, I can  
laugh And I'll never have to mask The way I am, you let me shine

You'll never have to worry It's here I want to rest It's here I  
learned how I can give my best

You let me shine the way I am Let me be because I know you understand  
I'll stay right here So free, 'cause I I can cry, I can  
laugh And I'll never have to mask The way I am, you let me shine  
The way I am, you let me shine Aah, let me shine - you let me  
shine
