

Memory Flash

Helia

Now it's time to rise and change the world
Stop to hide
Stop to whisper
Now it's time to scream out loud
Now it's time to rise and break the rules
And I know it's inside me
And I know you will find it
All the pain will remain a memory
This is our way
Everyone of you can lose control (now I control you)
Everyone of you can lose it all (this is your last chance)
Burn the ground
Burn the city down
And they'll now it
Make it end
Take it to the end
And they'll know it
I control you
