

Shivers

Helia

Shut up!
Shut up!
We're the leaders!
Shut up!
Now

1, This is for the lovers
2, This is for the haters
3, Fuck those stupid posers
4, I'll be true till death

We break that wall, we'll break down the wall
I'm sick and tired of all you
Now I'm about to break
Shut the fuck up!
Watch your mouth dog!
Shut the fuck up!

You'll save us
This is our way to the shivers
You'll save us
This is our way to the shivers

Load up your guns
And put your hands up
The revolution starts tonight

We break that wall, we'll break down the wall
Hey can you feel our power?
Yeah, we will blow you away

You'll save us
This is our way to the shivers
You'll save us
This is our way to the shivers

Can you feel the shivers?
Can you feel the pain?
Do you feel the shivers?
This is just our way
Can you feel the shivers?
Can you feel the pain?
Do you feel the shivers?
This is just our way

(You'll save us)
This is our way to the shivers
You'll save us
This is our way to the shivers

Save us (Save us)
Save us (Save us)
Save us (Save us)

Save us (Save us)
Save us (Save us)
Save us (Save us)

With the shivers

Save us (Save us)

Save us (Save us)

Save us (Save us)

With the shivers
