

Colors

Hell or Highwater

We live for the struggle here
Revel in [?]
Deny ourselves this air
We'll learn to breathe on our own
We're sick of this, the same old shit
The water rises, but the ships don't

We've been down in the trenches
We're not sinking, no
It won't be long before we all say
Wear your colors proud

Broken beyond repair
I'm left with ashes and bones
[?] the loser's share
Welcome the king to the throne
If the shoe fits, throw on those kicks
And make a run for it

We've been down in the trenches

We're not sinking, no
It won't be long before we all say
Wear your colors proud
Wear your colors proud

As long as it seems
The peasants will lead
Us up to the glory above
And here we will stay
And right as the rain
Pours on the gardens below

We've been down in the trenches
We're not sinking, no
It won't be long before we all say
Wear your colors proud
Wear your colors proud
Wear your colors proud
Wear your colors
Wear your colors
Wear your colors proud
