

Dame

Hell or Highwater

[Verse]

I stand in the pouring rain
Looking for a dime but a dollar came
Another fish floating in the sea
She bit the hook when she looked at me she said
Have you ever spent a night in the stars
Want to take a ride in my fancy car
I'll show you things I bet you've never seen
Cause you're not like me

[Chorus]

I don't need your fame
You can keep your faith
Cause at the end of the day, no
I won't play your games, no
You're just another dame
You're just another dame

[Verse]

Little miss with your nose in the air
You must have me confused with somebody who cares
Your body's burning but your heart is cold

A million dollars couldn't buy you a soul
I said, pick a number we can go for a ride
I'll show you what it's like on the other side
I'll show you things I bet you've never seen
Cause you're not like me

[Chorus]

I don't need your fame
You can keep your faith
Cause at the end of the day, no
I won't play your games, no
You're just another dame
You're just another dame

[Outro]

You're just another dame
I don't need your fame
You can keep your faith
Cause at the end of the day, no
I won't play your games, no
You're just another dame
