

## Don't Hate Me

### Hell or Highwater

I watched you fall away  
All inspiration down the hole  
Fading your light to gray  
Now you're gone, gone, gone  
Now you're gone

I wanna take you down  
Into the hell you made for me  
Don't hate me  
I wanna show you how  
How it feels to be the enemy  
Don't hate me  
Don't hate me

I watched you fall from grace  
Strength drenched in cowardice  
Seems like you lost your place, kid  
Now you're gone, gone, gone  
You wear the same disguise

Seen it a thousand times  
I sat here on the wall  
Out of step, out of place  
But only for so long

I wanna take you down  
Into the hell you made for me  
Don't hate me  
I wanna show you how  
How it feels to be the enemy  
Don't hate me  
Don't hate me

I wanna take you down  
Into the hell you made for me  
Don't hate me  
I wanna show you how  
How it feels to be the enemy  
Don't hate me  
Don't hate me
