

## Hail Mary!

## Hell or Highwater

Take your time. Do or die  
We only have a moment now.  
Take a bow and a sigh  
The finish line is catching up to  
us some how  
Live life no regrets.  
Live, learn ,and correct before  
the pipers paid out  
It's our time live or die  
It's only been forever now  
Watch the flames burn out

Darling, I thought you where the  
only one.  
Take a look at what our life's  
become

Hail Mary!  
Believe me, I gotta believe in  
something  
Cuz god only knows that I don't  
believe in you

Roll the words from your tongue  
As if you have it figured out  
Step inside crack a smile, look  
alive  
Were either going to swim or drown  
Realize that we all live and die  
I think it's time to power down  
It's our time live or die  
It's only been forever now  
Watch the flames burn out

Darling, I thought you where the  
only one.  
Take a look at what our life's  
become

Hail Mary!  
Believe me, I gotta believe in  
something  
Cuz god only knows that I don't  
believe in you  
Hail Mary!  
Release me from the grips of  
darkness  
And save me from the things I've  
come to fear the most.
