

Revolution

Hell or Highwater

[Verse]

I feel like I'm falling
But I can't be wrong when
I'm not alone, not alone, not alone
I want to be an ocean
I want to be the chosen
I'm not alone, not alone, not alone

[Pre Chorus]

And when the wind is blowing
We move with the motion
On and on, on and on, on and on
Cause there's nothing safer
Than knowing that you are the anchor

[Chorus]

Let's start a revolution, revolution, right now
Let's start a revolution, revolution, right now

[Verse]

We must embrace the aging
And never fear worth changing
On and on, on and on, on and on

And if the sky comes falling
We will ascend my darling
On and on, on and on, on and on

[Pre Chorus]

So when the wind is blowing
We move with the motion, yea

[Chorus]

Let's start a revolution, revolution, right now
Let's start a revolution, revolution, right now

[Vamp]

Let's start a revolution, revolution, right now
Let's start a revolution, revolution, right now
Let's start a revolution, revolution, right now
Let's start a revolution, revolution, right now
Let's start a revolution, revolution, right now
