

## Bloody Pussies

Hellhammer

She's got my joystick right in her mouth  
Givin' all she can, but I laugh about it  
It's not enough, I just want more  
Sent out by Satan, you dirty whore

Calls of lust, they fill my ears  
That little wife, she's full of tears  
She knows it, there's no way out  
So close your mouth and stop to shout  
I want bloody pussies  
I need bloody pussies  
Give me bloody pussies  
And I'll do what ya want

Heavy breathing, she moans in the act  
Chained to a demon who's got a death pact  
She closes her nice eyes and starts to cry  
C'mon, baby, my master calls, don't ask me why

Her little hands don't see tomorrow  
Need her flesh and that's my sorrow  
After all my lust, I'll use my sword  
Cut ya down, ya can't say a last word
