

Summoning the Satan's Crew

Hellion

We are the army of the rebels and sinners
We're gonna cut the heads o believers and priests
Christians, Muslims, Jews, any religion on earth
Will be destroyed by our hands and sent to the abyss

Satan will reign over the land and sea
His words will become laws and we will be free at last

Master! Hear me preach your commands
I have summoned your crew and we'll fight till death
Bringer of wisdom, make me strong to stand
I'm willing to lead this war in your name, I will fight

Bastard lambs, there is nowhere to hide
There are only two options, join us or die

Satan will reign over the land and sea
His words will become laws and we will be free at last
