

Like Everybody Else

Helloween

Dreamer, why don't you think like everybody else?
People, don't you care 'bout what they say?
Deceivers, they break you down and make you pay
Brothers, they don't understand any word you say

All your life you are fighting
They're trying to force you in

When the time has come
You'll not be alone
Cause walls broke down
They'll see they were wrong
When the time has come
There'll be more of you
With all their strength
You'll show them the truth

Mistreaters, they don't care, but fear your will
Sisters, they don't understand any word you say

All your life you are fighting
They're trying to force you in

When the time has come
You'll not be alone
Cause walls broke down
They'll see they were wrong
When the time has come
You ain't no fool
Cause walls broke down
They stop being cruel
When the time has come
There'll be more of you
With all their strength
You'll show them the truth

Dreamer, why can't you be like everybody else?
