Nothing to Say

Helloween

When I got told the other day, you said, ?Won't it be nice To spend some time and share a look?" There was no thinking twice The die was cast no time to lose as much as one can say Didn't hesitate to call you back and things were under way

And if it wasn't for the circumstance and well against all odds Well that's enough for feeling great, the best we could have got And just in case there's something wrong so much with you to share Much better anyways than watch or stroll 'round everywhere

Nothing to say
We got it there
A long, long way
Right in our hands

Nothing to say
Now we can use all we give
All of our loving and affection
We'll have our way like we always do

Nothing to say
Now we can use all we give
All of our loving and affection
We'll have our way like we always do

You called me up the other day just when I thought you would And asked if we could break apart as things ain't been too good I swallowed hard and got that feel, I know it's called unease The confidence I've kept so well, just came down piece by piece

That's all it takes, it's sad but done, no way to disagree Time takes toll and that's the way it's always gonna be

'Cos it wasn't yet the circumstance but more than just a test There's little left for feeling great and all I need's some rest There's not a single glimpse of hope, well, someone took my place It's yet another turn for me, I'll be messin' 'round everywhere

Nothing to say We got it there A long, long way Thereof our hands

Nothing to say
So you refuse all I give
All of my loving and affection
I'll make my way like I always do

Nothing to say
So you refuse all I give
All of my loving and affection
I'll make my way like I always do

So you refuse all I give
All of my loving and affection, oh, oh
So you refuse all I give
All of my loving and affection, oh, oh, oh

Nothing to say
So you refuse all I give
All of my loving and affection
I'll make my way like I always do

Nothing to say
So you refuse all I give
All of my loving and affection
I'll make my way like I always do, oh, oh, oh

I got, I got nothing to say
I got nothing, nothing to say
I got way, I still brave horizon

Nothing to spill Oh, long, long way Nothing to say, oh
