

# The Fire Thief

Hem

Wouldn't be the first time  
Love made a fool of me  
Wouldn't even care  
But now you're here to see

It comes as no surprise  
Just leave the light on

What I wouldn't give  
If you could have it all  
The sun that's going down  
The bed that breaks the fall

The cradle and the bow  
So you can take comfort now  
You can take comfort now

Sometimes a heart can break  
And make it's own relief  
The way a cold dark night  
Invites the fire thief

He wants to show us how  
So we can take comfort now  
We can take comfort now  
We can take comfort now

Leave the light on
