

What's the Catch?

Hemina

All in
Whoever said that life was simple
Lied through their teeth
What's the catch?
The catch is...
Anything that's worth a damn at all's worth fighting for

But if all was fair
We wouldn't have to spin the roulette wheel
And bet with our lives
Whether wrong or right
Only you or I can cross the distance formed by space and time

Don't know if I am ready to let myself fall
This fast without a lifeline
But now I'm sure as I have been before
The gamble's worth the gain

Are you waiting cos I'm waiting
Are you really there?
If you're who you said you are
There's no sense hiding me

In a different life
We wouldn't have to spin the roulette wheel
And bet with our lives
Whether wrong or right
Only you or I can cross the distance formed by space and time

Are you waiting cos I'm waiting?
