

No More Love

Hentai Corporation

I'm feelin' scared. The light is scattered
Ramayana's bloody mission

I need a care, I need a care
Virgin's nightmare, radiation

I'll hit the cage, I'll hit the cage
Stalin's cry persecutes vision

I feel no pain, I feel no pain
The starblazed horn

No more love gets me out of you
No more love gets me out of you
No more love gets me out of you
No more love...

I'm feelin' scared. The light is scattered
Christ cause blackholes, exhibition

In yellow dreams, in yellow dreams
Gizmo's tyranny, ambitions

Drive them out, drive them out
Chuchura's annihilation

I've got a key, I've got a key
The dead child born

No more love gets me out of you
No more love gets me out of you

You hate yourself
And I love you
My snake is full
Of reality
White love goes thru
And blasts the entrails
I break your hands
And you implode

I'm feelin' scared. The light is scattered
Ramayana's bloody mission

I need a care, I need a care
Virgin's nightmare, radiation

I'll hit the cage, I'll hit the cage
Stalin's cry persecutes vision

I feel no pain, I feel no pain
The starblazed horn

No more love gets me out of you
No more love gets me out of you
No more love gets me out of you
No more love...
