

## A Flower In My Garden

Hep Stars

There's a flower in my garden  
where weeds once used to grow  
Now there's laughter in the wind  
where sadness used to blow

I see Summer when I look into your eyes  
I see love and I hope it never dies  
There's a smile on your face  
how I wish it's gonna stay  
always, always

There's a flower in my garden  
it blooms like you my love  
and you're smiling like the sun  
that's shining from above

I feel Summer in the taste of your sweet kiss  
must be love 'cause I never felt like this  
and believe me when I say  
I will love you like today  
always, always

I see Summer when I look into your eyes  
I see love and I hope it never dies  
There's a smile on your face  
how I wish it's gonna stay  
always, always
