

# Diamonds

## Her Bright Skies

How can you sell yourself short if you follow your heart, you follow your heart?

Put your money where your mouth is or do as you told, do as you told

We talk, we talk, we talk for hours. You got me right where you want me.

Then walk away and leave as liars. Just like we didn't care.

Now we need to...

Take a step back, take it all back and  
Make a big mess, make a mess of everything.  
So put me up against the wall  
Get it all out, get it all out tonight.

All that time we were on the top of the world. And those diamonds eyes used to give me such a rush.

I was trouble at first. Now you've seen it all and I guess I wasn't good enough.

A kiss, a kiss is all it takes to forget the ache for a moment.

You and your one million friends. "Well, aren't you the one in my bed?"

We need to... (we need to...)

Take a step back, take it all back and  
Make a big mess, make a mess of everything.  
So put me up against the wall  
Get it all out, get it all out  
So make a call to finish what we started  
Or to end it all.  
I know just what to say.  
Get it all out, get it all out tonight.

Cause every minute of every day  
I still know your taste  
And I'm not living. I just exist.  
You wouldn't notice.

Take a step back, take it all back and  
Make a big mess, make a mess of everything.  
So put me up against the wall  
Get it all out, get it all out  
So make a call to finish what we started  
Or to end it all.  
I know just what to say.  
Get it all out, get it all out tonight.
