

## Six Six Six

### Her Bright Skies

One, two, three, four, five and a six

It's so much more than the chemicals  
There is to feeling you get  
When you get what you want  
And I turn into an animal  
So why don't you come inside  
I swear I won't bite you  
As it drips from my teeth can you taste me  
As it falls from my lips you know I'm coming for you  
I know a place we could both get wasted  
So get it move on  
We don't wanna be late

Six six six burn like a house fire  
Tick tick tick you don't know the time  
Come on  
Don't act so innocent  
Six six six seconds to midnight

Will I be able to help myself  
Cuz you brought out a monster (a monster)  
Freeze at my teeth sinking to your skin  
Oh I want you so bad I'd do anything  
As it drips from my teeth can you taste me  
As it falls from my lips can you hear me  
I know a place we could both get wasted  
So better move on  
We don't wanna be late

Six six six burn like a house fire  
Tick tick tick you don't know the time  
Come on don't act so innocent  
Six six six seconds to midnight  
Six six six burn like a house fire  
Tick tick tick you don't know the time  
Come on don't act so innocent  
Six six six seconds to midnight

If I bleed would you bleed with me and  
If I asked would you leave with me  
If I bleed would you bleed with me and  
If asked would you leave with me  
If I bleed would you bleed with me and  
If I asked would you leave with me  
If I bleed would you bleed with me and  
If I asked would you leave with me

Six six six burn like a house fire  
Tick tick tick you don't know the time  
Come on don't act so innocent  
Six six six  
Seconds to midnight

If I bleed would you bleed with me and  
If I asked would you leave with me  
If I bleed would you bleed with me and

If I asked would you leave with me

Six six six burn like a house fire  
Tick tick tick you don't know the time  
Come on don't act so innocent  
Six six six seconds to midnight
