

## The Best You'll Get

Her Bright Skies

Let me see things through your eyes  
you've always been so quick to analyze  
and you won't let it slip tonight  
i should have learned by now  
you would tell me to define  
the space i think i need to clear my mind  
but all i'm asking for is time  
and i won't tell ya

Cut me up (do what you got to)  
make me sweat (whatever it takes)  
drag it out (take what you came for)  
it's the best you'll get

Did you find the answer?  
did you win me back?  
no, you see what you want to see  
and you hear what you want to hear  
would you believe me  
if you only knew?  
no, you see what you want to see  
and you hear what you want to hear

How i wish i could explain  
there are things i feel but cannot name  
and you've stopped waiting for a change  
so turn me inside out  
let's hear it loud and clear  
my love, you know exactly what i'm thinking of  
even if it wouldn't be enough  
well, i'll never tell ya

Have you ever felt so nervous  
with your back against the wall?  
i got my heart on my sleeve  
isn't that what you wanted?  
can't believe the words i'm thinking  
i got them clinging to my teeth  
and as we're reaching the end  
i'm sorry to say you never learned  
from your mistakes
