Back (in y'r love)

When the wind is crawlin' at y'r basement floor & the rats are runnin' round tryin' to get underheath y'r chamber door when I smell the . . . on y'r sweatstained street & I see this French chick lickin' my speed When the snow is wettin' my old wooden chair & the crabs are runnin' round in my pubic hair when y'r bubblegum is stickin' in my pubic hair when all my old sollicitors come around, only needles for a pay & all me brandnew visitors only have spoons to give away

all my precious pleasures you took away with all your charms & all my so called treasures made a strainer of my arms

damn this cruel december
days shift into nights
I wish I could remember
how you drifted from my sight
anything I can think of
it never seems enough
I make friends with y'r daddy
I make friends with y'r dog
just to get you let me back in y'r love
just to get you let me back in y'r love
