

Just One Girl

Herman's Hermits

As I walk through the town
Smiling faces bring me down
Couples laughing as they stroll
With hands in twine

I need one girl to hold tight
Just one girl to kiss goodnight
Just one girl that I can see
And know she's mine

Laugh horizon
But for me some part is wrong
There's a hole in my world
All of the time

I need one girl to hold tight
Just one girl to kiss goodnight
Just one girl that I can see
And know she's mine

Everybody tells me not to be worried about mine
Love's a thing that you can't rush
It takes time
In this world there must be
Just one girl that's made for me
Someday soon I'll take return
And there she'll be

Head on a thrill
Or maybe walking in the rain
I see her face and feel my heart
Begin to whirl

That's one girl I can hold tight
One young girl to kiss goodnight
Just one girl that I can see
And know that she's mine

Head on a thrill
Or maybe walking in the rain
