

Endless depth of inexhaustible desires  
Only the scent!  
Only the taste!  
Nothing else do I feel  
Imperious albugo begs - more!!!  
Savour of redness  
Smell of power  
I await the imperfect creatures in the cave of my rule  
To take off the yoke of degradation  
To take back the cross of affront  
Only fear is my ally  
Only hunger is my inspiration  
The taste of blood - eternal commitment

I want to enter into your pupils  
Like the glitter of the sun dazzle your body  
Take rapture from your struggle  
I want to enter into your soul  
Like acid dissolve your body  
Take rapture from your impuissance  
One bridge is not enough!!!!

Exonerate you I shall like the serpent's venom  
Exonerate you I shall like I was told to

I arrive from the endless depth  
I arrive from the opened limbos

I know the language of the dead  
Spreading the virus of condemnation  
Eternity rejection  
Death itself nauseates at the site of me  
Albugo battles for power  
I am dead in eternity I last

Recognize your scent I shall  
Recognize your taste I shall  
Waiting for you  
Among the eternity of stars
