

Over but the Bleeding

Hexx

If you're driving late at night
On an old lonely highway
All alone, no one around for miles
Don't take the side roads
That appear along the highway
You don't know where they'll take you
You don't know where they'll take you

You could easily lose your way
And get lost in the backwoods
Never to be heard from again
Like a fly caught in a spider's web
It's all over but the bleeding
It's all over but the bleeding

If you're car stalls
And you end up wandering around
You'll be on the trail
Hell hounds on your trail
Stay away from old abandoned houses
Set back among the trees
It could be waiting there
It could be waiting there

You could easily lose your way
And get lost in the backwoods
Never to be heard from again
Like a fly caught in a spider's web
It's all over but the bleeding
It's all over but the bleeding
