

Cigarettes

Hey Marseilles

Jesus never smoked cigarettes
God never shot a gun
Mary mother never left her love
For the the cold california sun

I, I remember
How we, we danced out loud
And safe and solemn harbors
Away from windswept towns
And white cloth clouds
To dance out loud

Suture science to your forehead
I will take the blame
Miracles for lovers' sake
Are miracle the same

I, I remember
How we, we danced out loud
And safe and solemn harbors
Away from windswept towns
And white cloth clouds
To dance out loud

We'll ride our serpentine
We'll make a mighty wave
We'll burn our gasoline
We'll sing for sacred days
We'll ride our serpentine
We'll make mighty wave
We'll burn our gasoline
We will sing for sacred days

I, I remember
How we, we danced out loud
And safe and solemn harbors
Away from windswept towns
And white cloth clouds
To dance out loud
