

Eyes On You

Hey Marseilles

We said it was the last time
Even when I close my eyes
You're the one I can't deny
And we move in the landslide
Watch it all turn to dust
Block out the daylight

With the stars out
Show me what you need
Do you want it
To be honest

I've got my eyes on you
I've got my eyes on you

You were waiting on the pavement
The light from a photograph
Silent on the other side
In my words and arrangement
Can we use broken parts
To hold it all upright?

With the stars out
Show me what you need
Do you want it
To be honest

I've got my eyes on you
I've got my eyes on you

I've got my eyes on you
I think I'm falling through
To the other side
Even though we try, try, try

I fell too hard for you
I think I'm falling through
To the other side
Even though we try, try, try
