

Raw. Real

Hey Violet

Cage it up, let it free
This is you, this is me
When it ends, we begin
Say a prayer as we sin

Follow rules or rebel
Keeps secrets, live to tell
Once a false, but it's true
Where's the line, me and you

Make it right, can't you see
Let's unite, victory
Make it right, instantly
Let's unite, victory

This is life, this is death
This is right, this is breath
This is true, how I feel
This is raw, this is real

This is back, this is front
This is black, this is white
This is bad, this is want
These are tears I won't cry

This is in, this is out
This is up, this is down
Make it right, give it more
Let's unite with this chord

This is life, this is death
This is right, this is breath
This is true, how I feel
This is raw, this is real

Don't take what you need
Leave me here just to bleed
I can break just like you
I can cut, I can bruise
This is raw
This is real

Make it right, can't you see
Let's unite, victory
Make it right, instantly
Let's unite, victory

This is life, this is death
This is right, this is breath
This is true, how I feel
This is raw, this is real
