

Sparks Fly

Hey Violet

Flashback when we both wore halos,
You were my cure and I was your dark angel
Fires are meant to burn us,
Fights are meant to warn us
We could lose it all if we don't reignite this

When the dark tries swallowing our light,
We can fade or try to make this right
'Cause when we touch baby no one can deny

Sparks fly,
The best part of the movie every night,
Tell me I'm the one,
And I'll turn off the sun,
'Cause you're the only light I want

Sparks fly,
There's a constellation in your eyes
The rest of the world is living in the dark,
When we light up the sky
And they watch the sparks fly

I'll scream your name if you catch my echo,
When love is the victim we'll be the heroes.

When the dark tries swallowing our light,
Will we fade or try to make this right?
When I rise you illuminate my sky, yeah

Sparks fly,
The best part of the movie every night,
Tell me I'm the one,
And I'll turn off the sun,
'Cause you're the only light I want

Sparks fly,
There's a constellation in your eyes,
The rest of the world is living in the dark,
When we light up the sky
And they watch the sparks fly

Sparks fly,
The best part of the movie every night,
Tell me I'm the one,
And I'll turn off the sun,
'Cause you're the only light I want

Sparks fly,
There's a constellation in your eyes,
The rest of the world is living in the dark,
When we light up the sky
And they watch the sparks fly

And they watch the sparks fly
