

Cascades

High Highs

A warning sign
She flew across the world
To begin a life, to begin a life
A saw you again
Salt lake city
A long way, a long way from home

Don't you feel the same
In a cold September
You can have the world, the world
Don't you feel the same
In the wild eyes of love
You can have the world

Gorgeous day
Among cascades
I felt the tide, felt the tide
Pull away, pull away from earth

Don't you feel the same
In a cold September
You can have the world, the world
Don't you feel the same
In the wild eyes of love
You can have the world, the world

Will I see you again
In the cold September
You can have the world, world, world
