

# Love Is All

High Highs

When there was a kindness  
There was a way

Will a breeze carry you on?

Soft in the air  
You fight it  
Fight it to help

Drink it all  
Let it fill you

On a breeze  
You say to me  
"Love is all that you need"

It came and went  
It left you, left you a wreck

Strawberries  
Litter the floor

In time gone by  
You'll open up  
Open up wide

And let me breathe  
Let me breathe easy

On a breeze  
You say to me  
"Love is all that you need"

I'm falling out  
Of the same dream
